

TRUSTED DISTRIBUTION SOLUTIONS

for **Produce & Food Distribution**

Warehouse Management & Tracking Solutions

For more than 25 years, FASCOR has been providing Trusted Distribution Solutions to our clients for their distribution and warehouse management needs including:

- Wholesale Produce Distributors
- Produce and Food Processors
- Retail Food & Produce Distributors
- General Distribution and Warehousing

Country of Origin Label (COOL) – The COOL initiative is a major undertaking for produce/food companies today. With FASCOR, we help your organization meet COOL standards.

Traceability & Recall – With FASCOR, the ability to trace products (i.e. lots, etc.) provides your organization with information at your fingertips when you need it most. Instead of taking hours or days to determine where recalled product is within your operation, a FASCOR system will allow you to do that in minutes saving you time, money and potential legal liability.

Efficiency – By automating your organization's paper processes in your warehouse/distribution center, you will realize significant gains in efficiency and productivity.

Accuracy – When your organization decides to automate with a FASCOR Warehouse Management System(WMS), order accuracy will be yet another benefit your organization will realize saving you time and money.

Improved Client Service – Clients are the lifeblood of any organization. Anything that improves client service is a major step forward for your organization. With a FASCOR WMS solution, you will realize all of the benefits shown above resulting in greatly improved client service and a more robust bottom line for your organization.

The Castellini Group of Companies

FASCOR is proud to be the provider of WMS and Tracking Software to the Castellini Group of Companies which specialize in Produce and Food Distribution and related value added services.

CASTELLINI CO.

One of the nations oldest and largest wholesale produce distributors in the US, Castellini provides a full line of produce inventory in the Midwest with over 2,500 SKUs and a comprehensive line of organic and specialty products. Castellini likewise offers a variety of value add services such as repackaging.

CROSSETT CO.

Crosset Company is the premier service wholesaler in the Midwest providing over 500 supermarkets with their produce needs via direct-to-store delivery including fresh fruits, vegetables, floral, organically grown products as well as a full range of merchandising support, value added services and training.

CLUB CHEF

Club Chef has been Castellini Company's value-added arm since 1978. Club Chef serves most all of the major customers in the foodservice sector processing a wide variety of fruits and vegetables seven days a week – 24 hours per day.

MERCHANTS COLD STORAGE

Merchants provides fully integrated, refrigerated warehousing and distribution services for local and out of state vendors such as Sara Lee and Perkins Foods.

FASCOR's WMS offers produce / food companies of all sizes a broad and rich set of functionality capable of running the biggest warehouses but simple enough for the smallest without the high cost normally associated with a system of its capabilities. Companies using FASCOR's WMS benefit from many features and functions including:

- COOL - Country of Origin
- Lot Tracking
- Expiration Date Tracking
- Environment Code Control
- Traceability & Recall
- Receiving
- Putaway (System Managed)
- Location Manager
- Picking (Single or Multi Order, Zone, Pick & Pass and more)
- Voice Directed Picking
- System Managed Replenishment
- Shipping / Load Verification
- Cycle Count
- Pallet & Box Building
- WMS Web Reporting Tools
- Integration to TMS for Advanced Planning and transportation cost management
- System Administrator for managing parameters and rules
