Microsoft Awards FASCOR Client #1 Leader in Distribution Excellence for 2008

Roland DGA Earns Microsoft Dynamics-Great Plains Award

March 12, 2008, Orlando, FL – Microsoft awarded Roland DGA, North America’s leading distributor of Digital Print Technology and user of FASCOR Trusted Warehouse, Shipping & Distribution Solutions, its Customer Excellence Award for excellence in Distribution Industry Leadership.

The 2008 Customer Excellence Award for Distribution Industry Leadership recognizes and celebrates Microsoft clients that have achieved notable accomplishments using integrated Microsoft Dynamics-Great Plains solutions in distribution.

Roland DGA Corporation was recognized for its strong commitment to Distribution Industry Leadership by achieving its goal to move from multiple paper-based processes to a single, completely automated process. Roland DGA has partnered with FASCOR since 2004 to implement FASCOR’s paper-less Warehouse and Shipping Management Solutions that are fully integrated into Microsoft Dynamics-Great Plains.

“FASCOR is excited for and honored to support Roland DGA’s leading distribution operations”, stated Don Ruberg, President/CEO of FASCOR. “This prestigious award rightfully recognizes Roland DGA as leaders in distribution that leverage technology to improve operations, improve customer service and ultimately improve their business.”

Established in 1997, the Customer Excellence Awards, formerly named Pinnacle Awards, are awarded each year at the Convergence user conferences in the US and Europe. Microsoft Dynamics customers, partners and team members submit nominations. Judging teams for each of the categories rated nominees on creativity, vision, and business benefits. A panel of six Microsoft executive judges then reviewed each nomination prior to final approval.

Microsoft Dynamic-Great Plains is a full line of financial, customer relationship and supply chain management solutions that help businesses cut costs and work more effectively by automating paper-based and aging processes.

About Roland DGA Corporation

Roland DGA Corporation and affiliated companies are pioneers in the development of innovative digital technology for creative professionals.
